

WHY THE ALLIANCE

WESTERN ENERGY ALLIANCE

Western Energy Alliance is the leader and champion for independent oil and natural gas companies in the West. The Alliance is bold, fearless, and won't back down as we initiate meaningful change

We Stand For:

Unity

We stand as the unified voice and backbone for independent oil and natural gas companies in the West, connecting a community that is part of something bigger than itself.

Credibility

As informed leaders and industry experts, we're on the leading edge of the policies that most impact our members as we motivate stakeholders to engage.

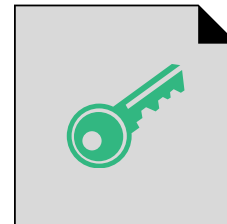

Action

We confidently advocate on behalf of our members. Our bold stances make waves and initiate meaningful change.

Leadership on Regional Issues

that affect all development and production on both federal and nonfederal lands such as air quality, methane rules, endangered species, demand preservation, and access to capital.

Promotion of Responsible Access

to non-park, non-wilderness public lands. Western Energy Alliance is defending almost every federal lease sold over nearly a decade while ensuring new policies do not limit further access.

Legal Defense of the Industry

We're fighting efforts to defund the industry and prevent exports while defending the federal onshore system and challenging methane rules.

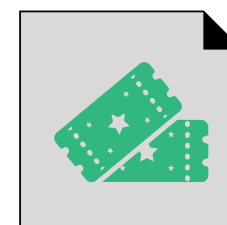

Out-Front Media Relations

The Alliance is the voice of the industry in the West. We frequently appear in national and international media such as the *Wall Street Journal*, *New York Times*, *Washington Post*, *BBC*, and *NPR*.

Political Action Committee

Our PAC supports candidates for federal office who support energy development.

Networking Events

We hold events that build a community in the West that collaborates to ensure abundant, affordable energy and a high quality of life for all.
