

Dashboard ^[1]

2012 Dashboard

The *Western Oil and Natural Gas Dashboard* is a compilation of government data related to oil and natural gas development in the West. The *Dashboard* is designed to help policymakers, the media and the general public identify and understand trends in western oil and natural gas development.

Below is the 2012 data set. To begin viewing the information, click the graphic below to launch the interactive PDF; you can also access the individual topic sheets by using the quick-links below. Our updated 2013 dashboard information can be found [here](#). ^[2]

Permitting 

^[4]
